43rd Design Automation Conference Receives Record Number of Technical Paper Submissions

BOULDER, Colo., Jan. 24, 2006 – The Design Automation Conference (DAC) today announced it received 1,007 technical paper, tutorial, panel and student design contest submissions for the 43rd DAC, which will be held July 24-28, 2006, at Moscone Center in San Francisco. This level of submission responses is the highest in DAC's history.

“This year's submissions are impressive not only in number, but also in the breadth of design issues and industry developments they address,” said Ellen Sentovich, 43rd DAC general chair. “As a result, the 43rd DAC will undoubtedly offer valuable insights for all of the conference's attendees from around the world representing the design engineer community, academia and the EDA industry.”

The submissions for this year's conference include: 864 regular paper submissions; 52 student design contest entries; 78 panel submissions and 13 tutorial proposals.

About DAC

DAC is the premier forum for the electronic design industry to exchange information on products, methodologies and processes. Attended by more than 10,000 developers, designers, researchers, managers and engineers from leading electronics companies and universities around the world, DAC includes more than 200 exhibitors and offers a robust

—more—

technical program covering the electronics industry's hottest trends to bring people to the event.

The conference is sponsored by the Association for Computing Machinery's Special Interest Group on Design Automation (ACM/SIGDA), the Circuits and Systems Society and Computer Aided Network Design Technical Committee of the Institute of Electrical and Electronics Engineers (IEEE/CASS/CANDE), and the Electronic Design Automation Consortium (EDA Consortium). More details about DAC are found at: www.dac.com.
